

Prophecy

Once a pastor said *water will always win*

Given long enough *it'll lap anything away*

Can't remember what this suggested about salvation

If it did Even pastors make small talk

Once a woman was about to become my mother

Watched the neighbor's barn burn down

The air pulsed took on a shape in the heat

Do the means of destruction define what it means to be destroyed

Everything is an omen if you look long enough

If you look for a reason
